Shopping Tips

We want to take the guesswork out of your online shopping experience! To find the correct items for your school, follow these simple steps:

1. Shop on your school's page: Search by school name or find it in the dropdown menu. Then select your child's grade under either Boys or Girls. We only list items that have been approved by your school.

2. Check your school's requirement sheet: Before you start shopping for accessories, check your uniform requirements list. You can find a copy at the top of each grade's page. These lists may also include such helpful information as skirt length rules.

Help! I can't find my school on the list: No problem! You can shop in the Uniform Basics section. Just be sure to check with your school about uniform requirements before you make a purchase.
